COLORADO STATE COLLEGE OF EDUCATION  
GREELEY, COLORADO

Owing to manpower and paper shortages and other factors, the college is postponing the issuing of a new catalog until some time during the academic year of 1944-1945. The new calendar and the information on this sheet will serve to extend the use of the 1942-1943 yearbook until a new issue is published.

*The core requirements* listed on pages 21 and 22, and other major requirements, are in the process of revision and are subject to change. The college reserves the right to put into effect new requirements *before* the publication of another yearbook.

*Prices* for room and board, and for bedding, in the residence halls vary with the cost of living indices, and are subject to change before the beginning of any quarter. Interested people should write for prices to the Secretary of Housing, Department of Student Personnel. Rooms in off-campus houses will average about \$32.00 per person per quarter.

*Graduate students* should consult the 1944 Graduate School Bulletin for changes in rules and regulations affecting them. A copy will be sent on request.
